Today, indeed, ignorance IS strength. It is the strength of the ruling class, the Washington/Wall Street Axis.

These are the Americans who were enriched supplying the weapons of war used by the 58,000 Americans whose names are enshrined on the Wall in Washington.

The totalitarian communist aggressors whose goal it was to enslave the Peoples of South-East Asia are VICTORIOUS!!! They, the butchers in Beijing, are being handed on a silver platter the six million freedom loving capitalists of Hong Kong who by a t taty endorsed by President Bush and the Democrats and Republicans in Congress, will completely lose their freedom on July 1st, 1997.

Most Americans are ignorant of this fact and most politicians don't care because they get their campaign funds from the very place that most profits from dealing with communist China: WALL STREET!

And guess what? War hero Bob Dole, in alliance with Senator Al Gore, wrote this endorsement, the U.S. Hong Kong Act of 1992 (S1731.) And the veterans groups in America don't even care. Freedom is indeed becoming slavery.
