Whose ox will get gored next time?

American society has been so fractured by ruling class manipulation that most folk who aren't sheeple or sleepie simply won't stand up for someone who is not exactly like them.

That's exactly what the ruling class wants.

As a result we have many different groups all equally abused and oppressed by the State, but all cowering in fear of each other and regarding each other with hostility. If we're fighting we ain't uniting.

In unity there is strength, but with disunity and suspicion the ruling class stays in power.

The ruling class sends jobs to third world countries so they can get richer leaving a smaller pie for the rest of us to divide.

Thats why we had Prop 187. The ruling class wants us to blame each other and poor Mexicans for our problems instead of wealthy Americans and wealthy Mexicans. United we stand. Divided, the ruling class conquers.

The rich get richer and the poor get...

guns.

We've already seen what the ruling class is willing to do to us. From Kent State to MOVE to Weaver to Waco to...?
