The contest between Dole and Clinton is merely one of political egos. They're both tools of Wall Street, and if Wall Street wants to make money dealing with China then we deal with China, and no amount of good sense will change it.

It was a Republican President who went to China and started the whole sell-out process, but it aided his re-election and created the illusion he was a Statesman, so we got stuck.

Check out the U.S-Hong Kong Act of 1992, (S1731) for proof. Co-sponsored by Helms and Dole AND Al Gore: a pure example of bi-partisan corruption. Signed by Bush October 1992.

How do you know Dole and Helms haven't called for sanctions against China? It is Bill Clinton who is giving China favored nations status, or at least extending it. Don't blame the whole problem on Republicans. It was JFK that wanted to give Queomy(sp) and Matsu back to China and it was a Republican president who supported Taiwan. Do you have verifiable proof about Helms and Dole?

Obviously you missed my Buch. Goes Flaccid writing in this topic about a week ago...

Why won't Dole and Helms call for sanctions against China for its forced abortion and infanticide policies? Hint: It has to do with the money they and their corrupt party gets from Wall Street corporations that expect to make BIG profits from dealing with China. Just follow the dollar and you'll find the truth about the Republican Party.

BUT-Clinton approves of "partial-birth" abortions -where the dangling feet of the baby are out of the womb, and the doctor applies a scissors to the little baby's head inside the womb--opening it--and sucking out the little baby's brains. And he also approves of the 1.5 million abortions that take place every year in this country. You talk about freedom-loving people in Hong Kong--how about little babies who have a right to life?

You call Helms and Dole butchers--what are doctors and women and Planned Parenthood ,who approve of the holocaust of babies in the womb--great humanitarians????!!!

Bill is certainly not perfect but at least he didn't co-sponsor a bill APPROVING Britain's sell-out of the 6,000,000 freedom loving capitalists of Hong Kong to the butchers in Beijing, as did Bob Dole and Jesse Helms.

Some conservatives will do anything for money!
