Ron Brown was a Wall Street stooge. He was off looking for ways to send even more American money out of this country. Why wasn't he bringing those executives to Benton Harbor Mi. and East St. Louis Il. and Camden NJ. which needs those investments?

It would be great for People to get off their butts and work as you say, but where are they to work when \$billions leave this country every month to cheap labor third world countries, which is highly profitable for U.S. corporations, but sure doesn't help the chronically underemployed. Clinton and Dole are always talking about creating new high paying jobs, but the People you refer to don't need high paying jobs, they need jobs at their skill level, manual jobs like those that have been exported to the third world by the millions over the last 16 years.

It does no good to insult these People as "lazy" when they don't have the capital and know-how to create their own businesses, especially when those with capital export it overseas at every opportunity. This just makes the rich richer and the poor desperate.

I agree with you re the Cold War, but now we're dealing with China, which will be an even bigger headache next century than the Soviet ever was. What good does it do to defeat the Soviet communists and then send \$40,000,000,000+ annually to the Chinese communists? We are actually subsidizing their military build up and the Republicans love it because they know we'll have to match it later in a new arms race, and the poor, of course, will STILL be left out.

"Free" trade is a weapon used against our own People.

Whatever the cost of waste, fraud and inept leadership at HUD, its just a drop in the bucket compared to the waste, fraud and inept leadership of 12 years of Republican misrule

RR was elected in '80 promising not only to balance the budget, but to pay off the national debt as well! So what happened after 12 years? The debt skyrocketed from only \$500 billion to \$4 trillion and the rich got richer with the taxpayer and future generations of taxpayers footing the bill.

If the poor didn't get any help in the eighties why would you think it would be any different in '97?

The rich have gotten richer and the poor have gotten guns. Do you think Dole will follow the Clinton policy of trying to keep guns out of the projects, or will he bow to the NRA and let the Revolution roll?
