Steve, The communists will remain in power as long as THEY
make a profit off US.

Isn't this a subject on the correct fate of Taiwan? Taiwan
hasn't been noted for being as "democratic" as this country.
They had martial law up until a few years ago.

Also, after Liberation the Nationalists looted the Bank of
China of its gold and Beijing of many art treasures. Not
very democratic of them.

Also, they pocketed the foriegn aid from the US which was
destined for China. Which led to the economic miracle.

While selling their military hardware to Iran too. If you
would look at Iran's advanced equipment, it came from China.
