Austin,

You might try a compare/contrast theme for your paper.

Look up Menachem Begin and his Irgun fighters of the mid-forties. Just prior to the liberation of Palestine he blew up the King David Hotel in Jerusalem killing hundreds of British imperialists, and became a National Hero. He later became Prime Minister and won the Nobel Prize for making peace with Egypt. Go figger.

It is well known that History is written by the victors>> and as Bob Dylan said: "The wheel's still in spin, and there is no telling who that its naming."

Its a good bet the American People will rise and overthrow the ruling class, the Washington/Wall Street Axis, and re-instate good, traditional middle-American values.
