Rick

Excuse me. The government did not blow up my downtown.

There have been a tremendous amount of misinformation published about the OKC bombing and this I know as a personal fact. And none of it was by the government.

You can push your personal agenda all you want, but you will not be appreciated here.

Do you happen to remember the names of the four students murdered by government forces at Kent State Ohio?

And how about the 260 sailors blown up with the Maine in Havana harbor by the government in order to justify a war to seize Spanish possessions in Cuba, Puerto Rico and the Phillipines?

A CBS/NY Times poll released in November 1993 shows that 50% of Americans believe the CIA was behind the Kennedy killing.

Don't jump to conclusions about who is responsible for the O.K.C. bombing. In America, still, (and despite the best efforts of Congressional Republicans and other fascist sympathizers) an accused is innocent until proved guilty.

We will not forget the crimes of ALL governments against ALL Peoples.

That was an inappropriate post...insensitive to the 169  
killed 6 months ago today...

Should you wish to set up subjects for your concerns please  
do so....HOWEVER...give the respect due for these here!
