Melinda and P:

"Treason does never prosper, what's the reason?
For if it prospers, none dare call it treason."*

You ought to read your (our) Declaration of Independence again and find out what Revolution is about. Not only does it assert our Right to Revolution, it states quite clearly that We have the Right to violent Revolution: "That whenever Form of Government becomes destructive of these ends, it is the Right of the People to alter or abolish it..." Alter or abolish means violent Revolution as those who endorsed those words had been engaged in the glorious process of killing the British occupation forces for more than a year, beginning April 19, 1775, and had pledged their Lives, Fortunes and sacred Honor to achieve this noble purpose.

The Declaration further states that "when a long train of abuses and usurpations...evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government..." Throw off means violent Revolution and Benj. Franklin addressed the very real threat of treason by counseling his Brothers: "We must hang together, else we will all hang separately."
So how are We today to apply this example to the current menace of creeping corporate fascism? Now, as then, a majority of Americans are against any change in the status quo. All governments everywhere, now as then, derive their JUST powers from the "consent of the governed."

You both seem to indicate that the ballot should take precedence over the bullet, as well it should, but We must discover the point where the People cease to consent to the various depredations foisted on them by the government and make a stand against their oppressor. That point has been reached and can be seen in contrast with the very solution that you both advocate. Voting. Today We can see the People have WITHDRAWN their consent to be governed by refusing to participate in the peaceful process of voting.

Today more People refuse to vote, even in Presidential elections, than come to the polls. The MAJORITY now store NO faith and credit in the current government, seeing the government as responsible for the steep decline in our living standards as well as being the special protector of

privilege and enforcer for the ruling class. This tells us the government no longer has legitimacy and like any other sickness or parasite, must be gotten rid of.

Melinda, please don't be so trusting and naive about the government as the Feds themselves have given lie to your statement: "Don't threaten the Feds and you will be safe."

The Weaver family tried to get and stay as far from the Feds as they could, yet the Feds sought them out and gunned them down. In 1770 we had the Boston Massacre and in 1992 the Ruby Ridge Massacre. Today if you exercise your First Amendment rights the Feds will kill you. This is a fact and as there have been no prosecutions for this conduct, but instead medals awarded, it has come to "kill them before they kill you."

>>

Treason doesn't prosper, but Revolution does. Look at this great Nation Revolution produced! But now the government has been occupied by a tiny group of wealthy people who use their money to bribe the crooked politicians to pass laws

Taking up arms against the US government is an act of treason.I hate the fact that they were involved with the overthrow of Allende and American involvement with Castro in the defeat of Bautista,but I would not welcome the overthrow of our government by ANYBODY.If you disagree with the leadership,register and VOTE.I would rather trust the Government than face the tyranny of loose canons.If you carry guns agains the Government you will GURANTEE that you will face gunfire.Don't threaten the feds and you will be safe.

Was this the same son who lunched with John Hinckley's brother on the day of the Reagan shooting and later destroyed Silverado S&L, costing the taxpayers million\$ and walked? It must be nice to have Blood in high places!

To the Sandinistas the Contra were terrorists but to us, freedom fighters. Used to be the U.S. government could be counted on to at least pay lip service to freedom but looks whats happening in Hong Kong. In 11 months six million freedom loving capitalists will lose their liberty to a blood-drenched tyranny but American "leaders" just grin and tote up all the contributions they'll receive from Wall Street corporations that will make big profits dealing with China.

Do you suppose if someone in Hong Kong takes up arms against the current and/or future oppressors the current U.S. gov't will support them like it supported the Contras, the Afghan freedom fighters and UNITA? I don't think so. That's one reason why we have to take up arms against the U.S. government: They have taken a hard turn toward tyranny and WE are next.

Hope you saw THE SIMPSONS episode where ex-President Bush moves across the street from the Simpsons
{when's the last time a US President visited
VERY funny families of non-military plane crash??}

I agree with your logic and think the #800 catastrophe

was manufactured in Washington DC to get a conviction
for JOSSEF in the World Trade Center Bombing

The trial began 6 mos ago with a HEIGHTENED TERRORIST ALERT
AT ALL US AIRPORTS, then the day the trial goes to jury
TWA FLIGHT #800 crashes

Let us not also forget that Georgie also had Sadham on a
multi-billion dollar allowance to offset the arms balance
created when the previous administration sold arms to Iran
with the intended result of providing money for the Contras.
Our soldiers faced missiles bought by American money in the
Persian Gulf War!!! What a weasel! I always loved that old
Reagan lie....We will not deal with terrorists.They sold
them missiles,though.

Tom Brokaw NBC Nightly News, Tuesday July 23, 1996:

"Its now been six days since TWA Flight 800 blew up and of
course there's been a lot of frustration for the families of
the victims and from the public hungry for information and
answers on what caused this tragedy. However, as we all
know, finding the facts is often very slow going.

"Take another major air disaster, the 1988 bombing of Pan Am
Flight 103 over Lockerbie, Scotland. It took six days for
investigators to conclude it was a bomb, but it wasn't until
three years later that officials concluded two Libyans used
a time bomb in a suitcase to blow the plane up. The suspects

still have not gone to trial because Libya won't release them."

Tom Brokaw, a leading apologist for the ruling class, has yet again used his air time to mislead millions of Americans about the truth in world events. While its true the fingers pointed at Libya three years after the bombing, what Tom DIDN'T remind us of is the FACT that those same fingers had pointed at Syria up until the three year mark.

That is, for nearly three years the "experts" blamed terrorists operating out of Syria with the aid of the government of Syria and its blood soaked leader Assad, the butcher of Hama for the Lockerbie bombing.

Syria was on the list of terrorist states. Then, suddenly, Syria was removed from the list of terrorist states and viola! a new "usual suspect" was rounded up. Libya. All the experts and investigators suddenly concluded "new facts" pointed at Libya and three years of accusations, sanctions and approbations were suddenly lifted. Why?

Because George Bush wanted to be re-elected President! About three years after Lockerbie Iraq invaded oil rich Kuwait and threatened oil rich Saudi Arabia and Georgie Boy figured this would be a good way to prove his "leadership" abilities and rack up high scores in the public opinion ratings.

Georgie began running around putting together the famous Gulf coalition and it turned out that the linch-pin of the alliance was to be...ta da...Syria! Assad's participation would cement the Arab forces against Hussien (Assad's chief nemesis- more so than hated Israel) and so Georgie had to pull him in and make him presentable. Statesman Georgie, politician Georgie, desperate liar Georgie, managed to get Syria and Assad OFF the terrorist list and INTO his company at a Desert Shield Summit in Vienna. So to engineer all this Syria was absolved of Lockerbie and Libya substituted.

It sounded pretty hokey to me but the American People bought it. Brokaw and his ilk help out their buddies in the Washington/Wall Street Axis while We the People get fed a lot of lies and disinformation in order to pave the way for some creep's re-election.

Who knows what lies they will tell us on the current bombing but we can bet the suspects WON'T come from any of the terrorist camps in Syria or Syrian occupied Lebanon.

No wonder Assad was grinning in Cairo. Kadaffi too.
