That is something to wonder about - Rothschild means red shield BTW. Makes for a very fancy coat of arms. The lucky dogs.

If it were to turn out that it was a suicide it wouldn't be the first from fabulous wealth to do such. Gloria Vanderbilt's son jumped to his death from a penthouse balcony with her begging him not to.

I guess when you're born with all the money in the world it just doesn't mean what it would to someone who has seen both sides - Ahhhh, Rosebud -

I wonder how come Hard Copy didn't rush off a reporter to Paris to interview the maid?

Mastabatory adventure as in auto-erotic asphyxia? He wouldn't be the first unfortunate victim. And they think sex with strangers is risky.

Stephen,

I, like Jefferson, believe its important to keep society in a state of democratic flux. Stagnation does no-one but the status quo any good. Its just plain dangerous for a culture to be ruled by a tiny number of inbred families who have as sole justification for their power the ability to amass wealth faster than wisdom.

Thanks for the news flash on the ruling elite. I'm guessing you supplement your reading with the right-wing weekly THE SPOTLIGHT. It sometimes has some good info. They're big on "The Bilderbergers", the Trilaterals, the Massad, and other conspiracies. Of course, there's more a than a little fire where there is smoke...

I guess the olde saying is true: "Money can't buy happiness."  
It can buy politicians, it can buy intellectuals, and it can even buy Capitalists, but it can never purchase personal fulfillment. That has to be earned.

Young Master Amschel Rothschild demonstrated that lesson last week.

New York Times July 12, 1996:

"Amschel Rothschild, the man who many believed was in line to lead the Rothschild's family's legendary banking dynasty, committed suicide this week, the company said today.

"N.M.Rothschild & Sons, the privately held family bank, confirmed that the death was a suicide after two French newspapers reported that a chambermaid had found him hanged in his room at the Bristol Hotel in Paris on Monday. But relatives of the 41-year-old Mr. Rothschild refused to give any details of his death, which was originally reported as having resulted from a heart attack.

"Bankers in the City of London, the financial center where the bank is based, speculated only that he might have been unhappy about losses suffered at Rothschild Asset Management Ltd., the division he headed.

"Mr. Rothschild, who is a member of the sixth generation of the family, entered the family business in 1988, rising to chairman of Rothschild Asset Management in 1990. Many experts said that put him in line to succeed Sir Evelyn (Rothschild), who is 64, as chairman of the entire bank.

"Financial experts in the City of London said that although the death of Amschel Rothschild would raise questions over succession, they did not believe that it would affect the performance of the Rothschild business."

SUCCESSION? They used the word "succession?" Sounds to me like actual Royalty, what they still have in England. Hmmm. I guess that's what dynasty is, after all. (In a short time a William, last of that name, repeating the original usurper, will take over the "throne" of the little country with the great-long-title.)

FAMILY BUSINESS? They used the word "family business?" I have a friend in Queens who could address that concept most colorfully.

And who will take over Amschel's place in line? Surely not his brother Lionel, described as a "gentleman farmer," which in ruling class lingo can mean anything from "cheery eccent-

ric" to "raving lunatic."

THE GREAT AMERICAN QUESTION: Which Rockefeller wood we most like to see Tom Lantos address?

Hope y'all had a happy Bastille Day!
