Gary,

100% correct! The illegal immigration would be greatly reduced IF there were no employers for them. With no job for them here, they'd stay away from the US as a place to look for a job. I used to blame them fully, but Rick Gombas pointed out your point a couple orf weeks ago and it made an awful lot of sense to me. You guy's have it figured out-- now we just need to convince employers and government alike!

Greg B.
